

NEWS RELEASE
QUESTOR TECHNOLOGY INC.
ANNOUNCES FIRST QUARTER 2015 FINANCIAL RESULTS

Calgary, Alberta (May 28, 2015) – Questor Technology Inc. (“Questor” or the “Company”) (TSX-V: QST) announced today its financial and operating results for the first quarter of 2015. Revenue this quarter was \$2.4 million, 26% lower than the prior year as the Company was impacted by the 50% reduction in oil prices in comparison to the first quarter of 2014 causing customers to look for opportunities to reduce costs and defer capital spending. Despite these challenges higher margins were achieved on the units sold in this quarter and rental revenues increased by 185% from the first quarter of 2014.

The Company generated a profit of \$513,733 (\$0.02 per share) in the first quarter of 2015 down from \$800,100 (\$0.032 per share) in the first quarter of the prior year due primarily to lower revenues arising out of the lower volume of incinerators sold. Higher Administrative expenses due in part to the Research and development investment in the Company’s combined heat and power (“CHP”) technology, served to decrease the Company’s earnings for the three months ended March 31, 2015 when compared to the same period of 2014, while higher net foreign exchange gains and other income recorded in 2015 contributed positively to the Company’s overall financial performance.

FINANCIAL HIGHLIGHTS SUMMARY

(Stated in Canadian dollars except shares outstanding)

For the three months ended March 31	2015	2014	Increase (decrease)
Revenue	2,369,086	3,215,437	(846,351)
Gross profit ⁽¹⁾	1,199,540	1,442,541	(243,001)
EBITDA ⁽¹⁾	924,158	1,171,598	(247,440)
Profit for the period ⁽¹⁾	513,733	800,100	(286,367)
Cost of sales as a percent of revenue ⁽¹⁾	49.4%	55.1%	(5.7%)
Funds flow from operations before movements in non-cash working capital ⁽¹⁾	867,099	1,255,065	(387,966)
Earnings per share - Basic	0.020	0.032	(0.012)
- Diluted	0.019	0.031	(0.012)

As at	March 31, 2015	December 31, 2014	Increase (decrease)
Total assets	16,643,741	16,427,044	216,697
Non-current liabilities	209,732	230,822	(21,090)
Shares outstanding ⁽²⁾			
Basic	25,839,870	25,579,034	260,836
Diluted	26,545,910	26,355,613	190,297

⁽²⁾ *Weighted average.*

Low commodity prices continue to create uncertainty in the market place and Questor's customers continue to evaluate opportunities to reduce costs, defer capital spending and concentrate on more profitable areas. The heightened global focus on emissions from flaring, climate change and the health concerns arising from the impacts of poor air quality have made it essential these issues be addressed in their operations in order to comply with regulations. Most recently, fines have been imposed for non-compliant emissions and companies have had their production curtailed in North Dakota as regulations come into force to reduce flaring.

In the U.S., Questor has strengthened its position by completing Environmental Protection Agency (EPA) Quad O testing of two of the Company's more commonly utilized incinerators. These units will serve markets where waste gas combustion for tank vapours and dehydrator emissions is required, two areas where the EPA has increased requirements for better performance. "Demand for our products is expected to grow quickly in both the sales and rental businesses", said Audrey Mascarenhas, Questor's President and CEO. "The market downturn created an opportunity for Questor to add additional talent to the marketing and sales team who will focus on the opportunities in the U.S. and Canada. We have an inventory of units available and have fabrication partners with sufficient capacity to meet new orders" she added.

The Company is currently investing in product development focused on providing its customers with an integrated solution and diversifying its product offerings. The acquisition of ClearPower Systems Inc. ("ClearPower") early in 2014, for its technology to convert waste heat into power is expected to present a valued solution for current and future customers in and outside of the oil and gas industry. Ms. Mascarenhas continued, "In response to the oil and gas industry's significant need for processed water management and cost control, we are further developing technology utilizing our waste heat to reduce water waste volumes at the well-site by up to 90 per cent at a cost of less than \$3 per barrel. We believe the market to be substantial for both technologies and anticipate revenue generation from both waste heat to power and water vaporization in the second half of 2015."

The solutions that Questor is providing are expected to enable its customers to reduce costs and improve the profitability of their operations. In the current economic environment, the option to rent equipment is attractive to both customers and the Company. Rental revenue has grown significantly in the latter part of 2014 and into 2015 and management will continue to look for opportunities to increase the contribution to cash flow from rentals. The Company has considerable financial flexibility and remains well positioned to react to opportunities in the market place.

Shareholders are invited to attend the Company's Annual General Meeting to be held on Tuesday, June 23, 2015 at 3:00 p.m. MDT in the Cardium Room of the Calgary Petroleum Club. In addition to the formal business items, management will present an overview of Questor's results for the financial year ended December 31, 2014 and first quarter ended March 31, 2015 and discuss the Company's strategic initiatives for 2015.

Questor's unaudited condensed consolidated financial statements and notes thereto and management's discussion and analysis for the three months ended March 31, 2015 will be available shortly on the Company's website at www.questortech.com and through SEDAR at www.sedar.com.

ABOUT QUESTOR TECHNOLOGY INC.

Questor is an international environmental oilfield services provider founded in late 1994 and headquartered in Calgary, Alberta, Canada with a field office located in Grande Prairie, Alberta. The Company is focused on clean air technologies with activities in Canada, the United States, Europe and Asia. Questor designs and manufactures high efficiency waste gas incinerators for sale or for use on a rental basis and also provides combustion-related oilfield services. The Company's proprietary incinerator technology destroys noxious or toxic hydrocarbon gases which enables regulatory compliance, environmental protection, public confidence and reduced operating costs for customers. Questor is recognized for its particular expertise in the combustion of sour gas (H₂S). The technology creates an opportunity to utilize the heat generated from efficient combustion which can be used for water vaporization, process heat and power generation, through ClearPower Solutions, Inc. (a subsidiary of Questor). While Questor's current customer base

operates primarily in the crude oil and natural gas industry, this technology is applicable to other industries such as landfills, water and sewage treatment, tire recycling and agriculture.

Questor trades on the TSX Venture Exchange under the symbol "QST".
